FEDERAL COMMUNICATIONS COMMISSION  
OFFICE OF THE SECRETARY

WSP Representative  
Wireless Service Provider  
Address  
City, State Zip Code

Dear (WSP Representative):

In accordance with the provisions of the Federal Communications Commission's (FCC) Docket 94-102, the State of California, 9-1-1 Program, is hereby notifying (Wireless Service Provider) of our intent to provide Phase I and Phase II wireless enhanced 9-1-1 (E9-1-1) throughout the state.

On behalf of the California Highway Patrol (CHP) Public Safety Answering Point (PSAP) in Los Angeles, we are requesting Phase I and Phase II for Los Angeles County at this time (please see attached letter of concurrence). The CHP customer premise equipment in Los Angeles is currently capable of receiving and using Phase I data and will be fully capable of receiving and using Phase II data by October 1, 2001.

In order for you to begin preparing your facilities throughout the state now, we want to make you aware of our statewide plan. Our plan is to begin deploying Phase I and Phase II in Los Angeles County and continue to implement on a scheduled basis throughout California until the entire state has the benefit of wireless E9-1-1. We will keep you informed of our implementation schedule as it becomes more defined, and we welcome any questions or concerns you might have with regard to meeting the requirements of FCC Docket 94-102.

Your assistance and cooperation is appreciated, and we look forward to working closely with you to bring this potentially life-saving technology to the people of California as quickly as possible. Please contact our Wireless E9-1-1 Project Manager, Mr. John Marengo, at (916) 657-9236 if you have questions or need additional information.

Sincerely,

BARRY R. HEMPHILL  
Deputy Director

cc: Thomas Sugrue, Chief, Wireless Telecommunications Bureau, Federal Communications Commission  
Maria Contreras-Sweet, Secretary, Business, Transportation & Housing Agency  
Aileen Adams, Secretary, State and Consumer Services Agency
